📍 Mumbai

SUMMARY

Skilled software developer who can bring diverse skill set to application development along with strong analytical and creative problem solving abilities.

IT EXPERIENCE

Software Developer

BNP Paribas India Solutions

📅 12/2016   📍 Mumbai

ARROW-DOME(Domestic Payment processing Engine)

- DOME is a event driven, batch processing payment engine to process domestic payments of BNP Paribas in European countries for a replacement of existing legacy payment system.
- Researched, designed and developed batch processes for this payment system from scratch using components like Apache camel, ActiveMQ, CXF & Quartz.
- Played a crucial role in designing and implementing Accounting module which is a core of payment engine.
- Designed & developed DOME GUI as an interface to manually intervene the payment processing operations using Spring,CXF service.
- Gained functional knowledge of payment processing and overall system architecture design process.

Software Engineer

Tata Consultancy Services

📅 12/2013 - 12/2016   📍 Mumbai

NSE-NGCD(New Generation Currency Derivatives) & Web Portal.

- Existing login module of trading system has been migrated from C/C++ to Java to perform broker logins,order validations and routing.
- Worked extensively on changed requests and involved in production support activities of Currency and Equity derivatives trading system.
- Worked with client like NSE and gained business knowledge of trading.
- Developed a web portal to automate trading system related tasks,operations and report generation process.

STRENGTHS

⭐ **Passion for Programming**
Passionate to learn new technical skills and implement them.

EDUCATION

BE Information Technology

Mumbai University

📅 08/2009 - 05/2013

GPA
70% / 100

TECHNOLOGIES

EIP and ESB

| JBoss Fuse | Apache Camel |

| ActiveMQ | Apache CXF |

Development

| Java 8 | Spring 4 | Hibernate |

| AngularJS | Linux Programming |

MY TIME

Ⓐ Batch Development.
Ⓑ JBoss Fuse & Apache camel.
Ⓒ Web development.
Ⓓ Linux Programming.
